

Ben H. Allen – Producer/Writer/Mixer/Engineer

There aren't many people that could make sense of the two musical experimenters in Cee-Lo and Dangermouse but that's exactly what Ben managed when he recorded and mixed the phenomenal Gnarls Barkley album. He then did it again with the highly acclaimed Animal Collective. Ben has been a closely kept secret on the Atlanta music scene for years. Listen to his records and it's obvious to see why.
