

Dwight Baker – Writer/Producer/Mixer/Engineer

The only thing that Dwight Baker has done quietly is his rise to chart success both as a writer and a producer and that's due to his un-nerving work ethic. After co-writing hits with Kelly Clarkson, Dwight built a state of the art studio in his home-town of Austin TX and continued to write and record music he loves whilst enjoying significant radio success across the genres, particularly at rock, alt country and AAA. Chart hits worldwide followed and Dwight has been busier than ever as more and more artists flow through his Matchbox Studios.
