

# Jim Eno – Producer/Mixer/Engineer/Musician

***Anyone familiar with the touring schedule of Spoon will be shocked to see how many artists have benefited from Spoon founding member Jim's production ear. But it is that same work ethic combined with his finely tuned engineering skills, mastered at his own Public Hi-Fi Studios, that he has lent to the many artists he's worked with over the years. A quick internet search will reveal how highly Jim is regarded in the hotbed music scene of his hometown of Austin TX & beyond but you won't find Jim talking himself up, he's more interested in making great music and letting the records do the talking for him.***

## Discography
