

JIMMY DOUGLASS – Producer/Mixer/Engineer

Jimmy Douglass is the most rare of creative people. With unmatched experience across the genres, Jimmy has been making records sound exciting for years. There aren't many that can boast the diversity of Jimmy's discography and he feels equally at home with organic musician driven music as he does in the world of hip-hop that he now dominates. As long time engineer and mixer for Timbaland, Jimmy has been instrumental in pushing forward hip-hop music and he continues breaking boundaries. Form is temporary, class is permanent.

Discography
